TECHNICAL PROJECTS

*(Listed here is my most recent work; you can find more on my portfolio's 'all works' section here:
<https://pycraftdeveloper.github.io/PycraftDeveloper/contents.html>)*

PMMA | February 2024 – Present

- Highly technical C++ backend.
- Includes C++, Cython and Python interactions.
- Practise of maintaining a large project and Python package.
- Experience maintaining a long-term project with documentation and customer support.
- Highly optimised API.

University of Northampton Virtual Reality (VR) Work | June 2026 – July 2026

- Paid industry experience using Unity 6000.
- Custom hand-pick-up system using the model geometry for more realistic VR hand interactions.
- Inverse finger kinematic system and custom tutorial hand animations.
- Includes a full game demonstration with a custom AI companion.
- Extensive optimisation focus to ensure full game demonstration runs natively on Meta Quest 3s.

Sokoban | February 2026 – July 2026

- Made using C++ and OpenGL.
- Made with a focus on high-performance rendering.
- Supports text rendering with FreeType and custom text atlas creation.
- Includes music playback and image loading through STB and MiniAudio.
- Using the GLFW window backend.

EDUCATION

Degree | University of Northampton

Currently studying BSc Games Programming at The University of Northampton (2nd year).

A-Level | Rugby Free Secondary School [RFSS] (2022 – 2024)

*(*A-Level E-A* grading system.)*

Computer Science (A), (Extended Project Qualification) EPQ (A), Mathematics (B), Physics (B).

GCSE | Rugby Free Secondary School [RFSS] (2018 – 2022)

*(*GCSE 1-9 grading system.)*

10 GCSEs in the range 8 to 9, including a 9 in Computer Science and Physics, an 8 in Maths and a Level 2 Distinction in Music Technology.

SKILLS

Languages: C++, C#, Python, Cython, GLSL, HLSL.

Engines and APIs: Unity 6000, Unreal Engine 5, OpenGL, BGFX.

Tools and DevOps: Git/GitHub, Visual Studio / Visual Studio Code, Linux and Windows CLI, as well as Microsoft 365 Suite and Google Workspace.

I am also familiar with both Linux and Windows operating systems.

ADDITIONAL ACTIVITIES

I completed my Bronze Duke of Edinburgh award in September 2021.

I was a Community Prefect at RFSS from September 2021 to July 2022.

I was a core team player in the RFSS Lego Robots teams during years 7 and 8, competing in local tournaments in 2018 - 2019 and in 2019 - 2020. Later in year 12, I helped run this club alongside the computer science and design technology departments.

INTERESTS

I enjoy programming, both as a hobby and for work, alongside reading, walking, cycling and video gaming.
